

Press Release

GreenArrays, Inc. Announces Management Realignment for 2010's Capitalization and Growth.

INCLINE VILLAGE, Nevada – 19 Jan 2010 – GreenArrays, Inc., the developer of low energy, multi-core computer chips and development tools, today announced a realignment of its management to carrying out its 2010 plans for capitalization and growth objectives.

Greg Bailey, Vice President of Engineering, will now be President.

CEO Chester A. (Chet) Brown, and Vice President Yu-Ping (YP) Cheng of Strategic Solutions, are retiring from active management and will be the nucleus of the newly formed GreenArrays Board of Advisors.

CFO Dave Sciarrino has been appointed Vice President of Business Operations.

Dean Sanderson has been appointed corporate Treasurer.

CTO Chuck Moore will continue in his position as Chief Technology Officer.

About GreenArrays

GreenArrays, Inc. is a privately held Nevada Corporation headquartered in Incline Village, NV. Founded in February 2009 by Charles H. Moore to further the development of multi-core computer chips and development tools, the company's mission is to use its unique, proven design tools and simple, green architecture to develop and market fine granularity, low energy solutions to problems difficult to solve using conventional technology. The company has developed chips intended for production, and is capable of contributing customized computing centers, where needed, in advanced wafer scale integrated systems.
